Crawford SupplyLINE
A Division of Crawford Packaging Inc.
3036 Page Street
London, ON N5V 4P2

Dear Don:

Winpak Division shares your concerns regarding compounds found in plastic food packaging, which could pose a health risk to the end user.

Many of the compounds in question are plasticizers used in soft and flexible vinyl products as well as some polycarbonates.

I can assure you that none of the films produced at Winpak Division contain BPA (bisphenol A) or BBP (n-butyl benzyl phthalate). If you have any further questions please call me at 1-204-889-1015.

Yours truly,

WINPAK LTD.
